

**FEDERACIÓN DE COLEGIOS
DE ARQUITECTOS DE LA
REPÚBLICA MEXICANA A.C.**

México City May 24nd,2019

Subject: Letter of Support

**AUDREY AZOULAY
DIRECTOR GENERAL
UNITED NATIONS EDUCATIONAL,
SCIENTIFIC AND CULTURAL ORGANIZATION**

It is with great pleasure that Federation of Associations of Architects of the Mexican Republic expresses its interest and support the candidature of Queretaro City to become part of the UNESCO Creative Cities Network through the creative field of Design.

We recognize this candidature has been developed carefully in a long term effort that implies the integral achievements of civil society, academia, creative industries, and the different levels of the local Government.

We are convinced that naming Queretaro City as a Creative City by the UNESCO will be key in propelling not only the design ecosystem but the whole creative scene into a dignified, productive and better conceived industry impacting all levels of the City.

Therefore, it is with great honor that Federation of Associations of Architects of the Mexican Republic recommends Queretaro City as an excellent candidate to receive this prestigious distinction.

Thank you for your kind consideration.

Best Regards,

ARCH. ALDO PAUL ORTEGA MOLINA
PRESIDENT OF THE FEDERATION OF ASSOCIATIONS OF
ARCHITECTS OF THE MEXICAN REPUBLIC C.A.
2019-2020
