EL REFUGIO DEL DISEÑO EN MÉXICO

Querétaro. June 12th 2019

UNITED NATIONS EDUCATIONAL,
SCIENTIFIC AND CULTURAL ORGANIZATION
(UNESCO)

It is with great pleasure that BOONKER Store · Gallery · Center expresses its interest and support the candidature of Queretaro City to become part of the UNESCO Creative Cities Network through the creative field of Design.

We recognize this candidature has been developed carefully in a long term effort that implies the integral achievements of civil society, academia, creative industries, and the different levels of the local Government. We are convinced that naming Queretaro City as a Creative City by the UNESCO will be key in propelling not only the design ecosystem but the whole creative scene into a dignified, productive and better conceived industry impacting all levels of the City.

Therefore, it is with great honor that BOONKER Store · Gallery · Center recommends Queretaro City as an excellent candidate to receive this prestigious distinction.
Thank you for your kind consideration.

Best Regards,
